

# 2013 New Engine Fundraising

PROTECTING AND SERVING SINCE 1881

To start off we want to thank all of the Businesses, Organizations, and individuals that have supported us over time. We have sold 1 engine and rescue, we are now operating with 1 engine, 1 tanker, and 1 utility truck until our new engine is ordered and arrives. Why do we need 2 engines? 1 Engine is for fire attack while the second unit is typically water supply, but the second Engine will also be set up for Motor Vehicle accidents, stand by assignments, responding when multiple incidents are going on within our district, carrying additional equipment, and transporting manpower. The new engine will cost an estimated \$330,000.00 and we still need to raise over 200,000.00, but with the support of our community we will achieve our goal. Our main sources of calls throughout the year are motor vehicle accidents, mutual aid calls, fires of various types but we also respond to carbon monoxide alarms, trees down, electrical emergencies, landing zones for medical helicopters, and so much more.

We will be there for your emergency like always—night, day, holidays, weekends, the middle of our dinner, anytime.

**We value you and your support, visit our website for our 2013 Engine Donation form!**
